1. Designer collections

Designer collections are created by iconic designers who turn rugs into unique experiences. Meet some of Ege Carpets' designer friends and discover their stunning work and the results of the collaborations.

Monsieur Christian Lacroix

With clear reference to fashion, Monsieur Christian Lacroix' textile designs are created from his personal archive of ethnic and foreign fabrics that're transformed into patterns of velvet draping and linen as well as fantasy motifs from his hometown in Provence, France.

Laura Bilde & Linnea Blæhr

The SHE collection pays tribute to the female designers and artisans of the past who've paved the way for future female artists. Inspired by vintage weaving techniques, expressionist shapes and graphic paintings, the SHE patterns are developed by hand as a recognition of imperfect interior design details. SHE features unicoloured patterns in which the contrasts are created by higher twisted yarn effects.

Tom Dixon

London is the departure point for the Industrial Landscape collection – and an eternal source of inspiration for creative director and designer Tom Dixon, who describes the British capital as perhaps not the prettiest, but certainly one of the most characterful cities in the world. His designs mirror London with all its raw, imperfect surfaces and rough materials in for instance iron inspired looks.

2. Custom design

Customised rugs offer a unique opportunity to tell the design vision for your project. Ege Carpets' inhouse designer team, Ege Design Studio, is always on hand to assist you in bringing your ideas and wishes to life.

Margrethe Odgaard

The internationally recognised textile designer and colour alchemist Margrethe Odgaard's ambition is to create poetry on the floor through colours that stimulate energies and create a nourishing, positive atmosphere. Inspired by the beauty of minerals and based on the interaction between colours, materials, light and space, Margrethe Odgaard has developed 56 evergreen colours for several woven Eco rug collections.
